Your Full Service Flag Company Crew

Ensure the Quality of your Patriotic Flag Flying Tradition

With ever changing weather conditions, it is impossible to predict the life of a flag. In fact, in severe conditions it is possible that a new flag put up today could show signs of wear tomorrow. Due to the varying weather/wind conditions and severity; you can expect to replace your flag(s) a *minimum of two times*, yet more likely 3-4 times per year.

Rocket introduced the *Flag Maintenance Service* in 1982. Our mission is to change the flags on a scheduled basis to prevent the appearance of excess flag wear. It also prevents and is the solution to the costly repairs of flagpole halyards (rope or cable) and flag clips that can, will, and do break if not maintained. Our Flag Maintenance Service will ensure the quality appearance of your Patriotic Flag flying display year round.

Since 1982 we have been committed to providing our customers with the highest quality of services. Thus, we have and continue to earn our reputation of reliability, integrity and professionalism. All of us at Rocket feel honored and privileged to be a part of your *Flag Flying Tradition!*

"I have used Rocket for Flag Maintenance Service and Flagpole Installation at my home and for many commercial projects. I have found them to be a company of courtesy, professionalism & high integrity and I would recommend them to anyone who is interested in flying the Flag of our Great Nation!" - Mr. Frederick Moore
